CROWLEY'S APPRENTICE. The Life and Ideas of Israel ...

Suster's (1951–2001) biography of Aleister Crowley (1875–1947) is presently the largest and most complete biography of Israel Regardie (1907–1985). The book covers, in detail, Regardie's early life, his experience with the Hermetic Order of the Golden Dawn's offshoot — the Stella Matutina — his dealings with and influence from Crowley, and a rather full account of his occult ...

Crowley's Apprentice: The Life and Ideas of Israel ...

Dr. Francis Israel Regardie was one of the most important figures in the 20th century development of the Western Mystery Tradition. From the teachings of Madame Blavatsky, the BhagavadGita, Buddhism, and yoga he came to study with Crowley and became his secretary.

Aleister Crowley (1875-1947) is one of the most famous and significant authors in the history of western esotericism. Crowley has been long ignored by scholars of religion whilst the stories of magical and sexual practice which circulate about him continue to attract popular interest. "Aleister Crowley and the Temptation of Politics" looks at the man behind the myth - by setting him firmly within the politics of his time - and the development of his ideas through his extensive and extraordinarily varied writings. Crowley was a rationalist, sympathetic to the values of the Enlightenment, but also a romantic and a reactionary. His search for an alternative way to express his religious feelings led him to elaborate his own vision of social and political change. Crowley's complex politics led to his involvement with many key individuals, organisations and groups of his day - the secret service of various countries, the German Nazi party, Russian political activists, journalists and politicians of various persuasions, as well as other writers - both in Europe and America. "Aleister Crowley and the Temptation of Politics" presents a life of ideas, an examination of a man shaped by and shaping the politics of his times.

"Throughout history, humans have always been fascinated by drugs and altered states. Despite the risk of addiction, many have used drugs as technologies to induce moments of meaning-making transcendence. This book traces the quest for transcendence and meaning through drugs in the modern West. Starting with the Romantic fascination with opium, it goes on to chronicle the discovery of anesthetics, psychiatric and religious interest in hashish, the bewitching power of mescaline and hallucinogenic fungi, as well as the more recent uses of LSD. It fills a major gap in our understanding of contemporary alternative and in the study of countercultures and popular culture. Today we are seeing increased social and scientific attention to both the positive and the negative effects of psychoactive drugs, particularly following the legalization of marijuana for medicinal and/or recreational use in some US states, as well as court cases involving the sacramental use of drugs. This fascinating and wide-ranging exploration of the controversial relationship between drugs and spirituality could not be more timely." [source : éditeur].

Gerald Suster (1951-2001) can be considered one of the most important occultists of the late-20th century. A prolific writer, esteemed historian and advocate of Thelemic Magick, he is best known for his biographies of Aleister Crowley (The Legacy of the Beast) & Israel Regardie (Crowley's Apprentice). Often described as a somewhat controversial and provocative character, Gerald made best use of these attributes in his published books and writings, employing common sense and wit to demolish all preconceived notions of what Magick is and how it might be utilised to further advance and accelerate human evolution. This volume comprises of the full collection of personal letters he wrote in correspondence with occult student George T. Mortimer, spanning over eight years from 1992 until near his death at the beginning of 2001. They reveal an exclusive insight into this unique and complex character, and will undoubtedly be of value to anyone engaged in studying the occult arts from a Thelemic & Crowlean standpoint.

When Baron Morgarath escaped to avoid punishment for treason, an uneasy peace fell on Araluen. But the Rangers know Morgarath will be planning his next move. King Duncan must prepare for war. Halt volunteers for a seemingly impossible task - climbing the deadly cliffs of the Mountains of Rain and Night and venturing deep into enemy territory to spy on Morgarath. Meanwhile, Crowley must ensure the Queen's safety as she undertakes her own perilous journey for the sake of her unborn child. Morgarath's force of savage, inhuman Wargals seems unstoppable against Duncan's depleted army. One wrong move could mean defeat. At the Battle of Hackham Heath, the fate of a Kingdom will be decided. The origin story of how Halt came to be Araluen's most famous Ranger - and how war will shape the future of the next generation - will thrill Ranger's Apprentice fans and new readers alike.

"When Halt and Crowley discover the ambitious Morgarath has been infiltrating the Rangers in order to corrupt the Corps, the young Rangers search for Prince Duncan so they can stop Morgarath before it is too late."--

The Golden Dawn (GD) system of magic is the main source of the esoteric and magical wisdom and techniques practiced in the West today. While the rituals and bare teachings of the tradition have been published for sixty years, the inner workings and esoteric keys that empower those rituals have largely remained unpublished or unexplored in contemporary works. By Names and Images remedies this lack by providing detailed and clear instructions for the visualisations, spiritual connections and energetic practices required for every major GD practice and ritual, as well as several unpublished techniques. Focusing on the meanings and use of sacred names and practical techniques of visualisation, the book thoroughly explores meditation and divination, purification ritual, invocation and evocation, grades of initiation, and direct experience of the inner realms. Also covered is an explanation of the Qabalah and its use as a magical framework. While the book is sufficiently practical and clearly explained to be of huge benefit to a newcomer to magic, its primary aim is to allow people already practicing the Golden Dawn system to do so more effectively, and to be touched by the amazing spiritual blessings the rituals offer.

Do the numbers suffusing the day of September 11th have occult significance? Why are the numbers 11, 77, 93, and 175 extremely significant in understanding the event? How did Aleister Crowley influence the events of 9/11, considering the fact that he died in 1947? How did Aleister Crowley inspire the doctrines of the New World Order? The answers to these questions is contained in the riveting book Prophet of Evil: Aleister Crowley, 9/11 and the New World Order.

As Morgarath recruits an army of Wargals, Halt ventures into enemy territory to uncover the extent of Morgarath's plan of attack.

This volume is the first comprehensive examination of one of the twentieth century's most distinctive iconoclasts. Aleister Crowley (1875-1947) was a study in contradictions. Born into a fundamentalist Christian family and educated at Cambridge, he was vilified as a traitor, drug addict, and debaucher, yet revered as perhaps the most influential thinker in contemporary esotericism. Moving beyond the influence of contemporary psychology and the modernist understanding of the occult, Crowley declared himself the revelator of a new age of individualism. Crowley's occult bricolage, Magick, was an eclectic combination of spiritual exercises drawn from Western European magical ceremonies and Indic sources for meditation and yoga. This journey of self-liberation culminated in harnessing sexual power as a magical discipline, a "sacrilization of the self" as practiced in Crowley's mixed masonic group, the Ordo Templi Orientis. The religion Crowley created, Thelema, legitimated his role as a charismatic revelator and herald of a new age of freedom. Aleister Crowley's lasting influence can be seen in the counter-culture movement of the late 1960s and early 1970s and in many forms of alternative spirituality and popular culture. The essays in this volume offer crucial insight into Crowley's foundational role in the study of Western esotericism, new religious movements, and sexuality.
