For introductory courses in Management Information Systems A process focus that's engaging, relevant, and easy to teach Transform your MIS course with Processes, Systems, and Information: An Introduction to MIS - a hands-on, process approach to business. Earl H. McKinney, Jr., and David M. Kroenke show students exactly how businesses use information systems and technology to create competitive strategies, support business processes, and accomplish their goals. Complete with numerous examples of business situations, this book helps students understand what business systems actually are and why they're so important. In the 3rd Edition, you'll find a reflection of the current technological landscape, coverage of technologies new to the business scene, and a strong emphasis on security. Its clear and concise presentation, within the process context, makes Processes, Systems, and Information the ideal book for majors and non-majors alike. Non-majors will see the vital role IS plays in supporting their business processes. Also available with MyLab MIS MyLab(tm) is the teaching and learning platform that empowers you to reach every student. By combining trusted author content with digital tools and a flexible platform, MyLab personalizes the learning experience and improves results for each student.
