"David Heer's biography of Kingsley Davis is based on material contained in the Kingsley Davis Archive at the Hoover Institution Library at Stanford University, the Kingsley Davis graduate file at Harvard University, the interview of Kingsley Davis by Jean van der Tak in *Demographic Destinies* (1990), and David Heer's personal relationship with Kingsley Davis. The book also contains thirty of the most important writings by Kingsley Davis. These were chosen, in part, for the number of citations received in the Cumulative Social Science Citation Index, and in part to ensure that readers would be able to assess the continuity of Kingsley Davis's ideas at all stages of his career."--BOOK JACKET.

Among the few diaries available from inside early Soviet Russia none approaches Iurii V. Got'e's in sustained length of coverage and depth of vivid detail. Got'e was a member of the Moscow intellectual elite--a complex and unusually observant man, who was a professor at Moscow University and one of the most prominent historians of Russia at the time the revolution broke out. Beginning his first entry with the words *Finis Russiae*, he describes his life in revolution-torn Moscow from July 8, 1917 through July 23, 1922--nearly the entire period of the Russian Revolution and Civil War up to the advent of the New Economic Policy. This remarkable

chronicle, published here for the first time, describes the hardships undergone by Got'e's family and friends and the gradual takeover of the academic and professional sectors of Russia by the new regime. Got'e was in his mid-forties when he wrote the diary. At first he felt that Bolshevism meant complete doom for Russia, but eventually his ardent patriotism led him to accept the Bolsheviks' role in preserving the integrity of the Russian state. The diary was discovered in 1982 in the Hoover Institution Archives, in the papers of Frank Golder, to whom Got'e himself had entrusted it in 1922. It is translated literally and unabridged, with annotations by Terence Emmons. The introduction by Professor Emmons places the diary clearly in the context of Got'e's life and scholarly career. Russomania: Russian Culture and the Creation of British Modernism provides a new account of modernist literature's emergence in Britain. British writers played a central role in the dissemination of Russian literature and culture during the

early twentieth century, and their writing was transformed by the encounter. This study restores the thick history of that moment, by analyzing networks of dissemination and reception to recover the role of neglected as well as canonical figures, and institutions as well as individuals. The dominant account of British modernism privileges a Francophile genealogy, but the turn-of-the-century debate about the future of British writing was a triangular debate, a debate not only between French and English models, but between French, English, and Russian models. Francophile modernists associated Russian literature, especially the Tolstoyan novel, with an uncritical immersion in 'life' at the expense of a mastery of style, and while individual works might be admired, Russian literature as a whole was represented as a

dangerous model for British writing. This supposed danger was closely bound up with the politics of the period, and this book investigates how Russian culture was deployed in the close relationships between writers, editors, and politicians who made up the early twentieth-century intellectual class--the British intelligentsia. Russomania argues that the most significant impact of Russian culture is not to be found in stylistic borrowings between canonical authors, but in the shaping of the major intellectual questions of the period: the relation between language and action, writer and audience, and the work of art and lived experience. The resulting account brings an occluded genealogy of early modernism to the fore, with a different arrangement of protagonists, different critical values, and stronger lines of connection to

the realist experiments of the Victorian past, and the anti-formalism and revived romanticism of the 1930s and 1940s future.

The present study fills a gap in the study of the evangelical movement in Russia by presenting a comprehensive picture of their compassionate ministry during their longest stretch of relative freedom before the 1980s. Better known for their energetic preaching and literature work, Russian evangelicals also gave attention to compassionate ministry, although it was never extensive because of their marginal status. They established assistance funds, organized charitable institutions, practiced urban rescue ministry, participated in the Russian temperance movement, and established

economic communities. Each area is distinct, yet all were supported by the same set of theological convictions. The Russian evangelicals were convinced that their witness should consist of good works as well as words, and that the gospel had the power to undo human suffering. While intentionally cultivating an attitude of concern for the needs of others, they taught that compassion was the concern of all members of the community, regardless of economic status or age. In their publications evangelicals devoted a good deal of teaching to the proper Christian attitude toward money and giving. They drew on Western models, but also their indigenous sectarian roots.

response social science has made to contemporary subjects and issues: the so-called "new class" of the intelligentsia, the ecology movement, social planning, alienation, privatization, anomie, the threat of nuclear war. Horowitz evaluates as a social scientist the question of values&—those disclosed through analysis, and those threatened by it&—and discusses the overall political and moral impact of knowledge and methodology in social science.
