The New York Times bestselling sequel to Newbery Medalist Jerry Spinelli ' s modern-day classic Stargirl, now an original film on Disney+! Love, Stargirl picks up a year after Stargirl ends and reveals the new life of the beloved character who moved away so suddenly at the end of Stargirl. The novel takes the form of "the world's longest letter," in diary form, going from date to date through a little more than a year's time. In her writing, Stargirl mixes memories of her bittersweet time in Mica, Arizona, with involvements with new people in her life. In Love, Stargirl, we hear the voice of Stargirl herself as she reflects on time, life, Leo, and - of course - love. “ Spinelli is a poet of the prepubescent. . . . No writer guides his young characters, and his readers, past these pitfalls and challenges and toward their futures with more compassion. ” —The New York Times

In this story about the perils of popularity, the courage of nonconformity, and the thrill of first love, an eccentric student named Stargirl changes Mica High School forever. Young Adult.

School and public libraries often provide programs and activities for children in preschool through the sixth grade, but there is little available to young adults. For them, libraries become a place for work—the place to research an assignment or find a book for a report—but the thought of the library as a place for enjoyment is lost. So how do librarians recapture the interest of teenagers? This just might be the answer. Here you will find theme-based units (such as Cartoon Cavalcade, Log On at the Library, Go in Style, Cruising the Mall, Space Shots, Teens on TV, and 44 others) that are designed for young adults. Each includes a display idea, suggestions for local sponsorship of prizes, a program game to encourage participation, 10 theme-related activities, curriculum tie-in activities, sample questions for use in trivia games or scavenger hunts, ideas for activity sheets, a bibliography of related works, and a list of theme-related films. The units are highly flexible, allowing any public or school library to adapt them to their particular needs.

Even though his classmates from first grade on have considered him strange and a loser, Donald Zinkoff's optimism and exuberance and the support of his loving family do not allow him to feel that way about himself.
