The system has not borrowed anything from the Profile platform -- arguably FIS's flagship core banking system -- and stands on its own in the FIS portfolio. That doesn't mean that Union Bank's experience with Profile didn't inform the selection process. "They had experienced some things with Profile and obviously as we went through our road-map and our development [of the Modern Banking Platform] they brought that to our attention," he adds.

Contains trends, statistical tables, and an industry glossary. This almanac presents over 300 profiles of outsourcing and offshoring industry firms. It also includes addresses, phone numbers, and executives.

Powerful forces are reshaping the banking industry. Customer expectations, technological capabilities, regulatory requirements, demographics and economics are together creating an imperative to change. Banks need to get ahead of these challenges and retool to win in the next era. Banks must not only execute on today's imperatives, but also radically innovate and transform themselves for the future.

There has been lots of discussion of digital and open banking, banking-as-a-service, banking platforms, FinTech and TechFin and more over the past decade. This all indicates that we are in a decade of rapid cycle change that presents huge challenges and huge opportunities. Billion dollar unicorns appear rapidly, whilst internet giants achieve global domination. How are banks dealing with these changes and are any banks showing leadership? Well yes, a few are. With all the gloom merchants saying that traditional banking is doomed, a few banks have made radical moves to adapt and survive. Chris Skinner, world-leading commentator on banking and technology, has selected five of those banks—JPMorgan Chase (USA), BBVA and ING (Europe), and DBS and CMB (Asia)—to share their experiences. In detailed interviews, and with wide-ranging commentary, he has discovered the secrets of how not just adapt and survive, but how to thrive in this sea change of finance and technology. Learn the lessons of the leaders, and learn how to become a successful digital bank, by Doing Digital.

ESSENTIALS OF MANAGING TREASURY Treasury is the financial hub of an organization—a hub with many spokes. This concise reference describes each functional area within treasury and includes guidelines for best practices and relevant technologies. With tips and techniques, it provides a practical overview of treasury and its relationship to every part of an organization. "Karen Horcher enjoys a well-earned reputation as an expert in her field, having both written and taught financial seminars for the Treasury Management Association of Canada (TMAC) for the past seven years. Her many years of experience as a front-line banker lend credibility to her work. Karen is justly appreciated for her ability to make complex financial concepts easy to understand." -Blair McRobie, Executive Director Treasury Management Association of Canada "Essentials of Managing Treasury provides an excellent perspective on the history, breadth, and current trends in treasury management. The reader can quickly grasp the 'real world of treasury management' and the practical and strategic issues faced by treasurers and financial professionals today." -Brian McArthur, Vice President Treasury Management, Royal Bank Financial Group The Wiley Essentials Series—because the business world is always changing...and so should you.

The global financial system is in crisis, bankers are in disrepute and Britain is on the brink of a double-dip recession. Now one man, fed up with never-ending tales of greed and corruption, sets out to prove that there is a different way of doing things - by opening his own bank to help inject much-needed life into local businesses. Dave Fishwick is a self-made, straight-talking man from Burnley who hates the banks. Published to tie in with a Channel 4 series of the same name, this is the story of his attempt to set up a simple, no-nonsense bank that actually cares about its customers. Dave plans to put hundreds of thousands of pounds of his own money into the enterprise; he will offer his customers a far better rate of interest than they get on the high street; he will lend to struggling local businesses that the banks don't want to know about; and he aims to bring the Bank of Dave into profit within 180 days. If he succeeds, he'll give whatever he makes to charity. If he fails, he'll make a terrible loss and ruin his hard-earned reputation as a successful businessman. Can one man really take on the banking giants and make a real difference to local businesses and his community? Dave Fishwick certainly hopes so.

Digital Bank tracks the innovations in banking and how the mobile internet is changing the dynamics of consumer and corporate relationships with their banks. The implication is that banks must become digitised, and that is a challenge as becoming a Digital Bank demands new services focused upon 21st-century technologies. Digital Bank not only includes extensive guidance and background on the digital revolution in banking, but also in-depth analysis of the activities of incumbent banks such as Barclays in the UK and mBank in Poland, as well as new start-ups such as Metro Bank and disruptive new models of banking such as FIDOR Bank in Germany. Add on to these a comprehensive sprinkling of completely new models of finance, such as Zopa and Bitcoin, and you can see that this book is a must-have for anyone involved in the future of business, commerce and banking. Chris Skinner is best known as an independent commentator on the financial markets through the Finanser (www.thefinanser.com) and Chair of the European networking forum The Financial Services Club, which he founded in 2004. He is the author of ten books covering everything from European regulations in banking through the credit crisis to the future of banking, and is a regular commentator on BBC News, Sky News and Bloomberg about banking issues. More can be discovered about Chris here: <http://thefinanser.co.uk/fsclub/chris-skinner/>
