Every four years since 2004, the Copenhagen Consensus Center has organized and hosted a high profile thought experiment about how a hypothetical extra \$75 billion of development assistance money might best be spent to solve twelve of the major crises facing the world today. Collated in this specially commissioned book, a group of more than 50 experts make their cases for investment, discussing how to combat problems ranging from armed conflicts, corruption and trade barriers, to natural disasters, hunger, education and climate change. For each case, 'Alternative Perspectives' are also included to provide a critique and make other suggestions for investment. In addition, a panel of senior economists, including four Nobel Laureates, rank the attractiveness of each policy proposal in terms of its anticipated cost-benefit ratio. This thought-provoking book opens up debate, encouraging readers to come up with their own rankings and decide which solutions are smarter than others.

This book addresses the concerns of existing companies who wish to succeed in the new multi-channel environment as it develops and becomes commonplace.

"This multiple-volume publication advances the emergent field of mobile computing offering research on approaches, observations and models pertaining to mobile devices and wireless communications from over 400 leading researchers"--Provided by publisher.

The Learning Solution is a practical guide for parents who want to improve their child's academic situation in school. It is written by a practicing school psychologist to give parents effective strategies for making the most helpful and realistic choices for children experiencing difficulty with their schoolwork. The Learning Solution will provide parents with the skills needed to negotiate the education maze and teach them how to advocate for their child. Parents will also learn how build an effective cooperative relationship with their child at home. The Learning Solution has been updated to include a chapter on mental health issues currently impacting on children's learning experiences in school. In addition, current information is provided on the medications used in the treatment of Attention Deficit Hyperactivity Disorder.

The School Teachers' Review Body makes recommendations for the level of pay and conditions of employment for teachers in England and Wales. This report, divided into 9 chapters, and an appendix, covers the following areas: teachers' pay; consultees' analysis; Review Body's analysis; teachers' pay in the current period; teachers' pay from September 2008; starting salaries and the four pay bands. It also examines further pay matters, looking into pay for: leadership groups; excellent teachers; advanced skills teachers; TLR payments; SEN allowances, and provides recommendations. Also one chapter focuses on Unqualified teachers.
