The Rise of European Security Cooperation

This is an extraordinarily well-researched and neatly presented book, which convincingly illustrates the rise of European defense capabilities in the last two decades. The explanatory thesis, however, is just classic neo-realism: change in the international system has caused Europe to seek defense autonomy in order to compete with the United States.

INTERNATIONAL RELATIONS THEORY AND THE RISE OF EUROPEAN ...

It realized that the common European market could supplement if not replace its decreasing imperial markets. In other words, economic interest motivated the U.K. to join the E.U. The U.K. also found that it benefitted in being an active member of the European security architecture. NATO and the E.U. became the bedrock of British national security.

crime and ensuring security lies with member states, recent years' terrorist attacks have shown that security is also a common responsibility.

This new Handbook brings together key experts on European security from the academic and policy worlds to examine the European Union (EU) as an international security actor. In the two decades since the end of the Cold

Read PDF The Rise Of European Security

War, the EU has gradually emerged as an autonomous actor in the field of security, aiming to safeguard European security by improving global security. However, the EU's development as a security actor has certainly not remained uncontested, either by academics or by policy-makers, some of whom see the rise of the EU as a threat to their national and/or transatlantic policy outlook. While the focus of this volume is on the politico-military dimension, security will also be put into the context of the holistic approach advocated by the EU. The book is

A systematic and comprehensive analysis of the significant increase in security cooperation among European states.

This volume serves as a prism through which the European Union's external relations and security can be assessed. Experts tackle strategic issues such as Russia's relationship with the West, the rise of China (with special reference to arms supplies), Iran's nuclear program, and European homeland security against the background of global terrorism. On these issues and others,

Cooperation, and new patterns had and - since this redefinition appears to be an ongoing process - have to be rethought. In terms of security, the school of the political scientist Barry Buzan presented a structural cluster for the understanding of new evolving threats, resulting from the dissolution of the bipolarity with Russia and USA as having been oppositional poles of more or less equal strength. Apart from the military - related aspects that have dominated the thinking of conflict research throughout the period of the Cold War, this approach includes the
