When Gabi and Lia finally learn to surf the river of time, they realize they must make hard choices about life and love in Torrent, the third and final book in the River of Time series. But love calls across the centuries, and the girls are determined to return forever--even though they know the Black Plague is advancing across Europe, claiming the lives of one-third of the population. When Gabi and Lia finally learn to surf the river of time, they realize they must make hard choices about life and love in Torrent, the third and final book in the River of Time series. Gabi and Lia Betarrini have learned to control their time travel, and they return from medieval Italy to save their father from his tragic death in modern times. But love calls across the centuries, and the girls are determined to return forever—even though they know the Black Plague is advancing across Europe, claiming the lives of one-third of the population. In the suspenseful conclusion of the River of Time series, every decision is about life — and death.

Love calls across the centuries in the River of Time Series. WATERFALL: Gabi and Lia are stuck among the rubble of medieval castles in rural Tuscany on yet another hot, boring, and dusty archeological site — until Gabi places her hand atop a handprint in an ancient tomb and finds herself in fourteenth-century Italy. CASCADE: When Gabi and Lia find themselves back in the fourteenth century—and in the middle of major battles alongside romantic knights in shining armor—they have no idea if they can get back. Or if they even want to. TORRENT: When Gabi and Lia finally learn to surf the river of time, they realize they must make hard choices about life and love in Torrent, the third and final book in the River of Time series.

Most American teenagers want a vacation in Italy, but the Bentarrini sisters have spent every summer of their lives with their parents, famed Etruscan scholars, among the romantic hills. In Book One of the River of Time series, Gabi and Lia are stuck among the rubble of medieval castles in rural Tuscany on yet another hot, boring, and dusty archeological site — until Gabi places her hand atop a handprint in an ancient tomb and finds herself in fourteenth-century Italy. And worse yet, in the middle of a fierce battle between knights of two opposing forces. And thus she comes to be rescued by the knight-prince Marcello Falassi, who takes her back to his father's castle—a castle Gabi has seen in ruins in another life. Suddenly Gabi's summer in Italy is much, much more interesting. But what do you do when your knight in shining armor lives, literally, in a different world?

Mom touched my underdress—a gown made six hundred years before—and her eyes widened as she rubbed the raw silk between thumb and forefinger. She turned and touched Lia's gown. "Where did you get these clothes?" In Cascade, the second book in the River of Time Series, Gabi knows she's left her heart in the fourteenth century and she persuades Lia to help her to return, even though they know doing so will risk their very lives. When they arrive, weeks have passed and all of Siena longs to celebrate the heroines who turned the tide in the battle against Florence—while the Florentines will go to great lengths to see them dead. But Marcello patiently awaits, and Gabi must decide if she's willing to leave her family behind for good in order to give her heart to him forever.

It's possible to beat a She-Wolf. Wealth cannot buy peace — or direction. For Cora Kensington, the Grand Tour was to be the trip of a lifetime. She discovered the family she never knew she had, and may have even found the love she longs for in Will. And yet her life has just become infinitely more challenging — Hounded by journalists chasing the beguiling story of the newest American heiress, Cora fights to remain true to her past, reconcile her present, and still embrace her future. But as Will struggles with her newfound wealth, she begins to wonder if their love is strong enough to withstand all that threatens to pull them apart. Complicating matters is the stubborn pursuit of Pierre de Richelieu and the increased demands on her time and attention. Cora must stand up for what she believes—regardless of how that might challenge current family and cultural norms—in order to remain true to who she really is. And as she glimpses the end of the tour, Cora knows it's time to decide Who and what defines her — and who and what does not.

First published in 1926, The Torrents of Spring is a hilarious parody of the Chicago school of literature. Poking fun at that "great race" of writers, it depicts a vogue that Hemingway himself refused to follow. In style and substance, The Torrents of Spring is a burlesque of Sherwood Anderson's Dark Laughter, but in the course of the narrative, other literary tendencies associated with American and British writers akin to Anderson—such as D. H. Lawrence, James Joyce, and John Dos Passos—come in for satirical comment. A highly entertaining story, The Torrents of Spring offers a rare glimpse into Hemingway's early career as a storyteller and stylist.

When Donal, the eighteen-year-old crown prince of Topal, finds on the river bank an object with a cryptic message, he knows that somehow it has come from across the wide, raging river that separates his kingdom from the land on the other side. He devises an ingenious—nd dangerous—ay to cross the torrent and discovers a culture opposite to his own. The women hunt, farm, herd and rule while the men must care for children, keep house and prepare meals. He also meets Lacia, the most beautiful girl he has ever seen, who detests his immodest outfit of doublet and hose, the type of costume she wears, and insists that he wear a gown while in Lona. Donal persuades her to visit Topal but she is so disturbed by what she perceives as injustice that she soon returns to her own country. However, the brief contact between the two countries leads to social revolution on both sides of the torrent as the members of each oppressed sex resolve to better themselves.
